1940's Ripon 42 Ambidextrous Glove

Here is your opportunity to purchase a well maintained, unusual glove produced in the 1940's by the Ripon Co. in Wisconsin. The leather is very supple and the stampings retain a trace amount of their original silver. The only marring defect is the initials on the back wrist strap. This model would make a fine addition to any collection.....\$895

1950's Jackie Robinson JC Higgins 1617 Glove

Extraordinarily rare 1950's glove, one of just three U.S.-manufactured Jackie Robinson gloves ever found, possibly manufactured as a prototype. It combines the popular JC Higgins brand with pro-stock Wilson features, including top-grade tanned steer hide leather with "Streamline Kurv-Form Fingers" patent stamping on the outer finger. (Robinson actually used a Wilson model). The condition of this glove is outstanding with beautiful, supple leather, outstanding lining, and easily legible stampings on the heel, pinky and palm. Robinson's signature endorsement appears in the palm, very sharp and easily read. One hundred percent of the silver remains. The lacing appears original. Great lining. Minor restoration, to the piping. A spectacular example of this ultra-rare Jackie Robinson glove.....\$2,500

DOAK MODEL J EACH \$9.00

Special short finger model for infielders. Otherwise same as Model H Doak.

1930's Bill Doak Rawlings Model J Glove

This is the elusive Model J, one of the more difficult models. The leather is fantastic inside and out. It's supple. It has both the white Bill Doak tag as well as the red Rawlings tag, which shows some wear but is all there. It has a Rawlings incised button. The stampings are pretty light but readable. It feels great on the hand.....\$450

c. 1924-28 Thos. E. Wilson 663 Cub Model Youth Full Web Glove

This is an early Thomas E. Wilson 663 Cub model. The logo is readable and the stampings still have a lot of silver left. The cloth piping is pretty nice. It has an asbestos or felt lining that goes all the way to the top of the fingers. This one also has a hang tag from the Edgar L. Klipple Sporting and Athletic Goods Company (Klipples) from Wilkes-Barre, Pennsylvania. Hang tags are extremely tough on early gloves.....\$115

1910's Alex Taylor YMCA 15 Full Web Glove

Gorgeous glove. Fully leather lined with no issues. Large 9.5 x 9.5 inches. YMCA stamps on back of thumb and bottom of palm front designates it was shipped and used by US troops during WWI in France as a means of morale. "15" stamp on full web to designate 1915. You won't find a nicer Alex Taylor glove. An absolutely outstanding centerpiece glove.....\$925

c. 1920's Klipples Youth Full Web Glove

This is an early youth full web sold by Klipples. The hang tag says Edgar L. Klipple Sporting and Athletic Goods Wilkes-Barre, Pennsylvania. A little research of Edgar Lyons Klipple states "he was the head of the oldest establishment in Wilkes-Barre which has been operated under the same name for such a period." Hang tags are extremely tough and desirable on early gloves.....\$115

1924 Stanley Coveleski Goldsmith TB Glove

There are fewer examples of HOF'er Coveleski gloves than for just about any other significant glove, including J. Robinson, zippered Gehrig, workman's gloves, Cobb, Duck, even fingerless. There are just two reported Coveleski gloves, and this is one of them. Professionally repaired many, many years ago, this glove has finger-webbing, ribbing, and palm repairs, with very strong markings, especially for name recognition. The front of glove looks great, with only the back showing repairs. Pictures tell the story. Odds are you won't see another.....\$6,200

Model TB

Model TB—Stanley Coveleski Model. An especially designed glove suitable for either infielder's or first baseman's use. Made with webbed fingers with special reinforcement and rawhide lace between thumb and fore-finger (Patented Nov. 13, 1923). The leather is the finest quality velvet tanned golden brown horsehide. Stitched outseam style with heavy cord. Full kid lined and correctly padded. Full laced wrist. Each, \$8.00

1950's Tom Tresh Rawlings RTM66 Glove

I have never heard of this model number before. Other than that, this glove is kind of a hot mess. It's a little stiff and a bunch of the laces are broken. It would be fun to take this one apart, clean & condition it and then fully relace it. The bones are good. It has no ink, a nice lining, piping, stampings and tag. The broken laces are what needs addressing. Are you up for it?.....\$20

ROY CAMPANELLA *Personal Model*

A2400 Bearing the name of Hall of Fame member Roy Campanella, this Twin-Action model continues as one of the most popular mitts ever developed. Including all of the features described on the opposite page, it lends itself to the modern one-handed style of catching because of its extreme flexibility. Maximum possible shape retention is contributed by the newly developed nylon mesh reinforced polypropylene base pad and banding of all three sections of the padding. The two breaks in the padding are positioned to make possible the most efficient response to minimum pressure by the catcher, both in making the catch and in opening the mitt for the quick throw. Made in U.S.A.
