The finest Catcher's Mitt in the World-

Endorsed by Catchers in every American League Club.

Ray Schalk

This mitt is now being used in every club in the American League. I have been told by every catcher who is using it that they like it very much.

It is the model I have looked for for a long time, and feels great on my hand.

Doc Adams
New York Yankees

I have found it very satisfactory, especially as to the workmanship and the style of padding used.

W. Rues
Boston Red Sox

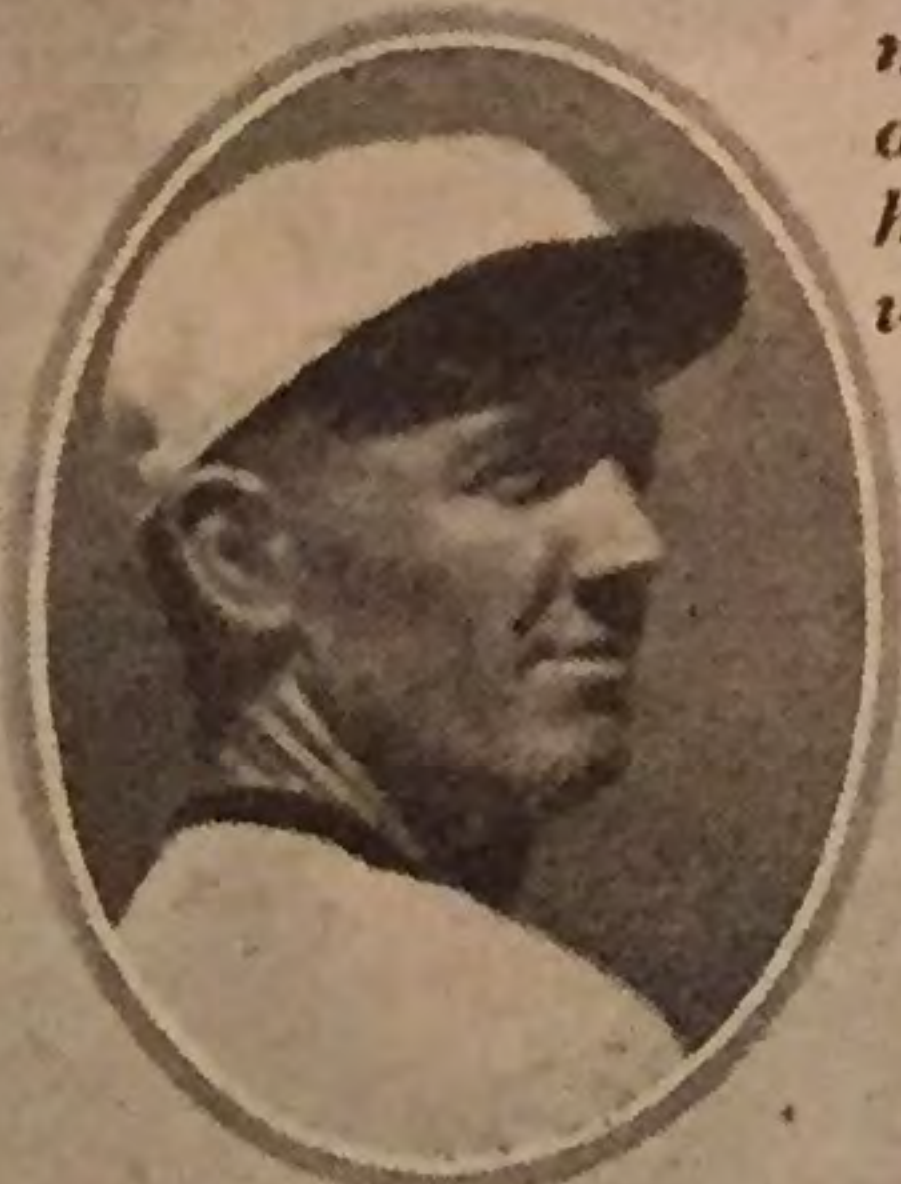

Like it very much. The make-up of the mitt is fine, and will stand up under hard work; that is what we want, you know.

E. D. Sharitz
Washington Senators

It fulfills my idea of a catcher's mitt

Johnny Bassler
Detroit Tigers

I find it satisfactory in every way. It requires little breaking in, and its combined light weight and durability make it a very desirable mitt.

George E. Dees
Chicago White Sox

I like it very much, especially the way the padding is formed. It will stand a lot of service.

Ralph Perkins
Philadelphia Athletics

I am using your mitt and consider same one of the best catching mitts I have had the opportunity to use.

Henry Severist
St. Louis Browns

Ray Schalk Model Catcher's Mitt Designed by Ray Schalk and perfected by Thos. E. Wilson & Co. to meet every requirement of the major league catcher. Made of the finest selection of cowhide, tan color—tanned especially for this mitt. Small size to give perfect balance and enable the catcher to shift quickly. Hand moulded palm. Special constructed pad, made of several layers of finest quality felt, hand formed, moulded and closely hand stitched. This insures longer service after being broken in. Each \$15⁰⁰

BASE BALL

THOS. E. WILSON & CO.

Wilson Professional Model Molded Catcher's Mitts

503—WILSON JUMBO

503. "Wilson Jumbo." An extra large professional model, full moulded. This mitt is designed especially for the backstop, who wants a larger and better mitt than the average. Made of the choicest selection of black calfskin, full laced with black leather lace, leather welted seams, asbestos felt pad, made in four layers so shaped as to form a deep ball pocket, and reinforced to withstand the constant pounding of the ball as delivered by the professional pitcher. New style fingers with outseams, making the surface against the back of the hand perfectly smooth, double wrist protector, adjustable strap and buckle fastening at thumb.

Each, \$13.50

500. Professional Sponge Pocket Model. A full moulded mitt, made of selected cowhide, in a rich tan color. Hand made pad, consisting of four layers of best quality asbestos felt, formed to make a deep pocket. Stitched with heavy waxed linen thread; fingers double stitched, roll style, leather binding, leather welted seams, full laced with tan leather lace, Wilson special wrist strap and buckle. The sponge pocket is fitted with clasps, making it possible to use the mitt either with or without the sponge. This feature relieves the constant pounding of the ball against the palm where the regular padding is the thinnest.

Each, \$12.50

WILSON SPONGE POCKET

Showing the simplicity of the sponge pocket used in our 500 mitt. When the clasps are fastened the pocket and sponge are completely concealed. It requires only a second to insert or remove the sponge when desired.

501. Professional Model Moulded Mitt. Large size, the choicest calfskin in a dark tan color, of a very tough, yet soft and pliable tannage, is selected for this mitt. Padded with four layers of the finest quality asbestos felt, hand formed and shaped to form a deep natural ball pocket. Full laced, with a tough Indian rawhide; hand trimmed leather welted seams, roll style leather binding. Wilson special wrist strap and buckle. Each, \$11.00

Wilson Professional Model Molded Catcher's Mitts

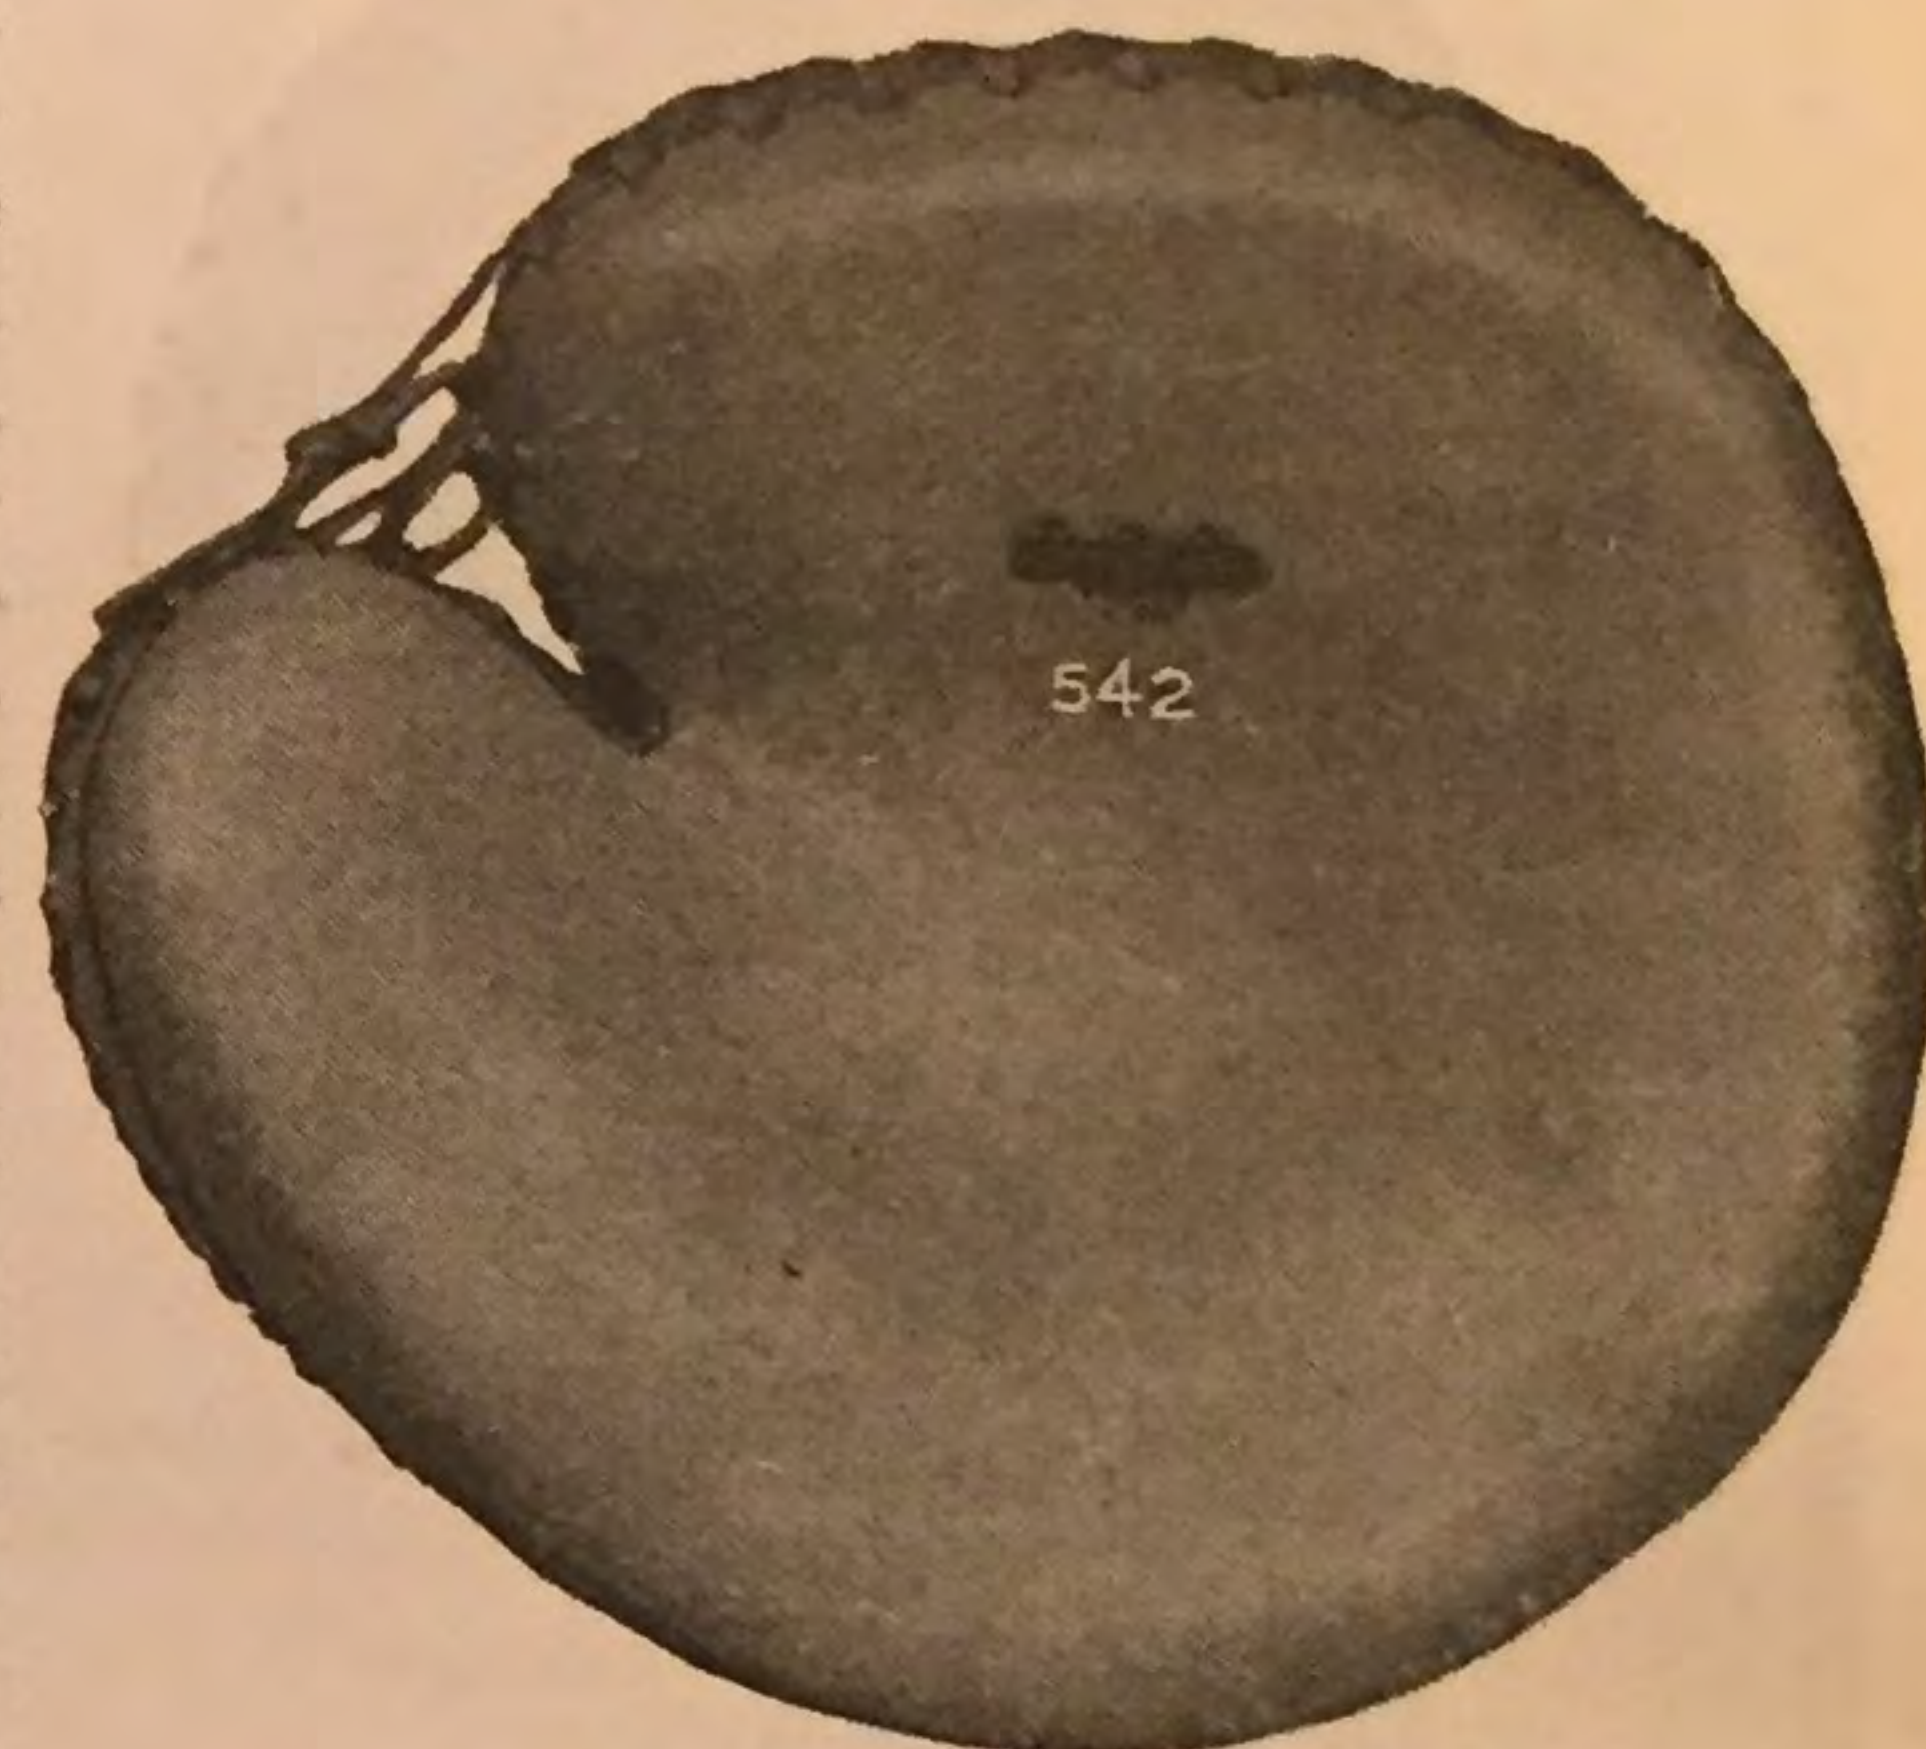

502

504

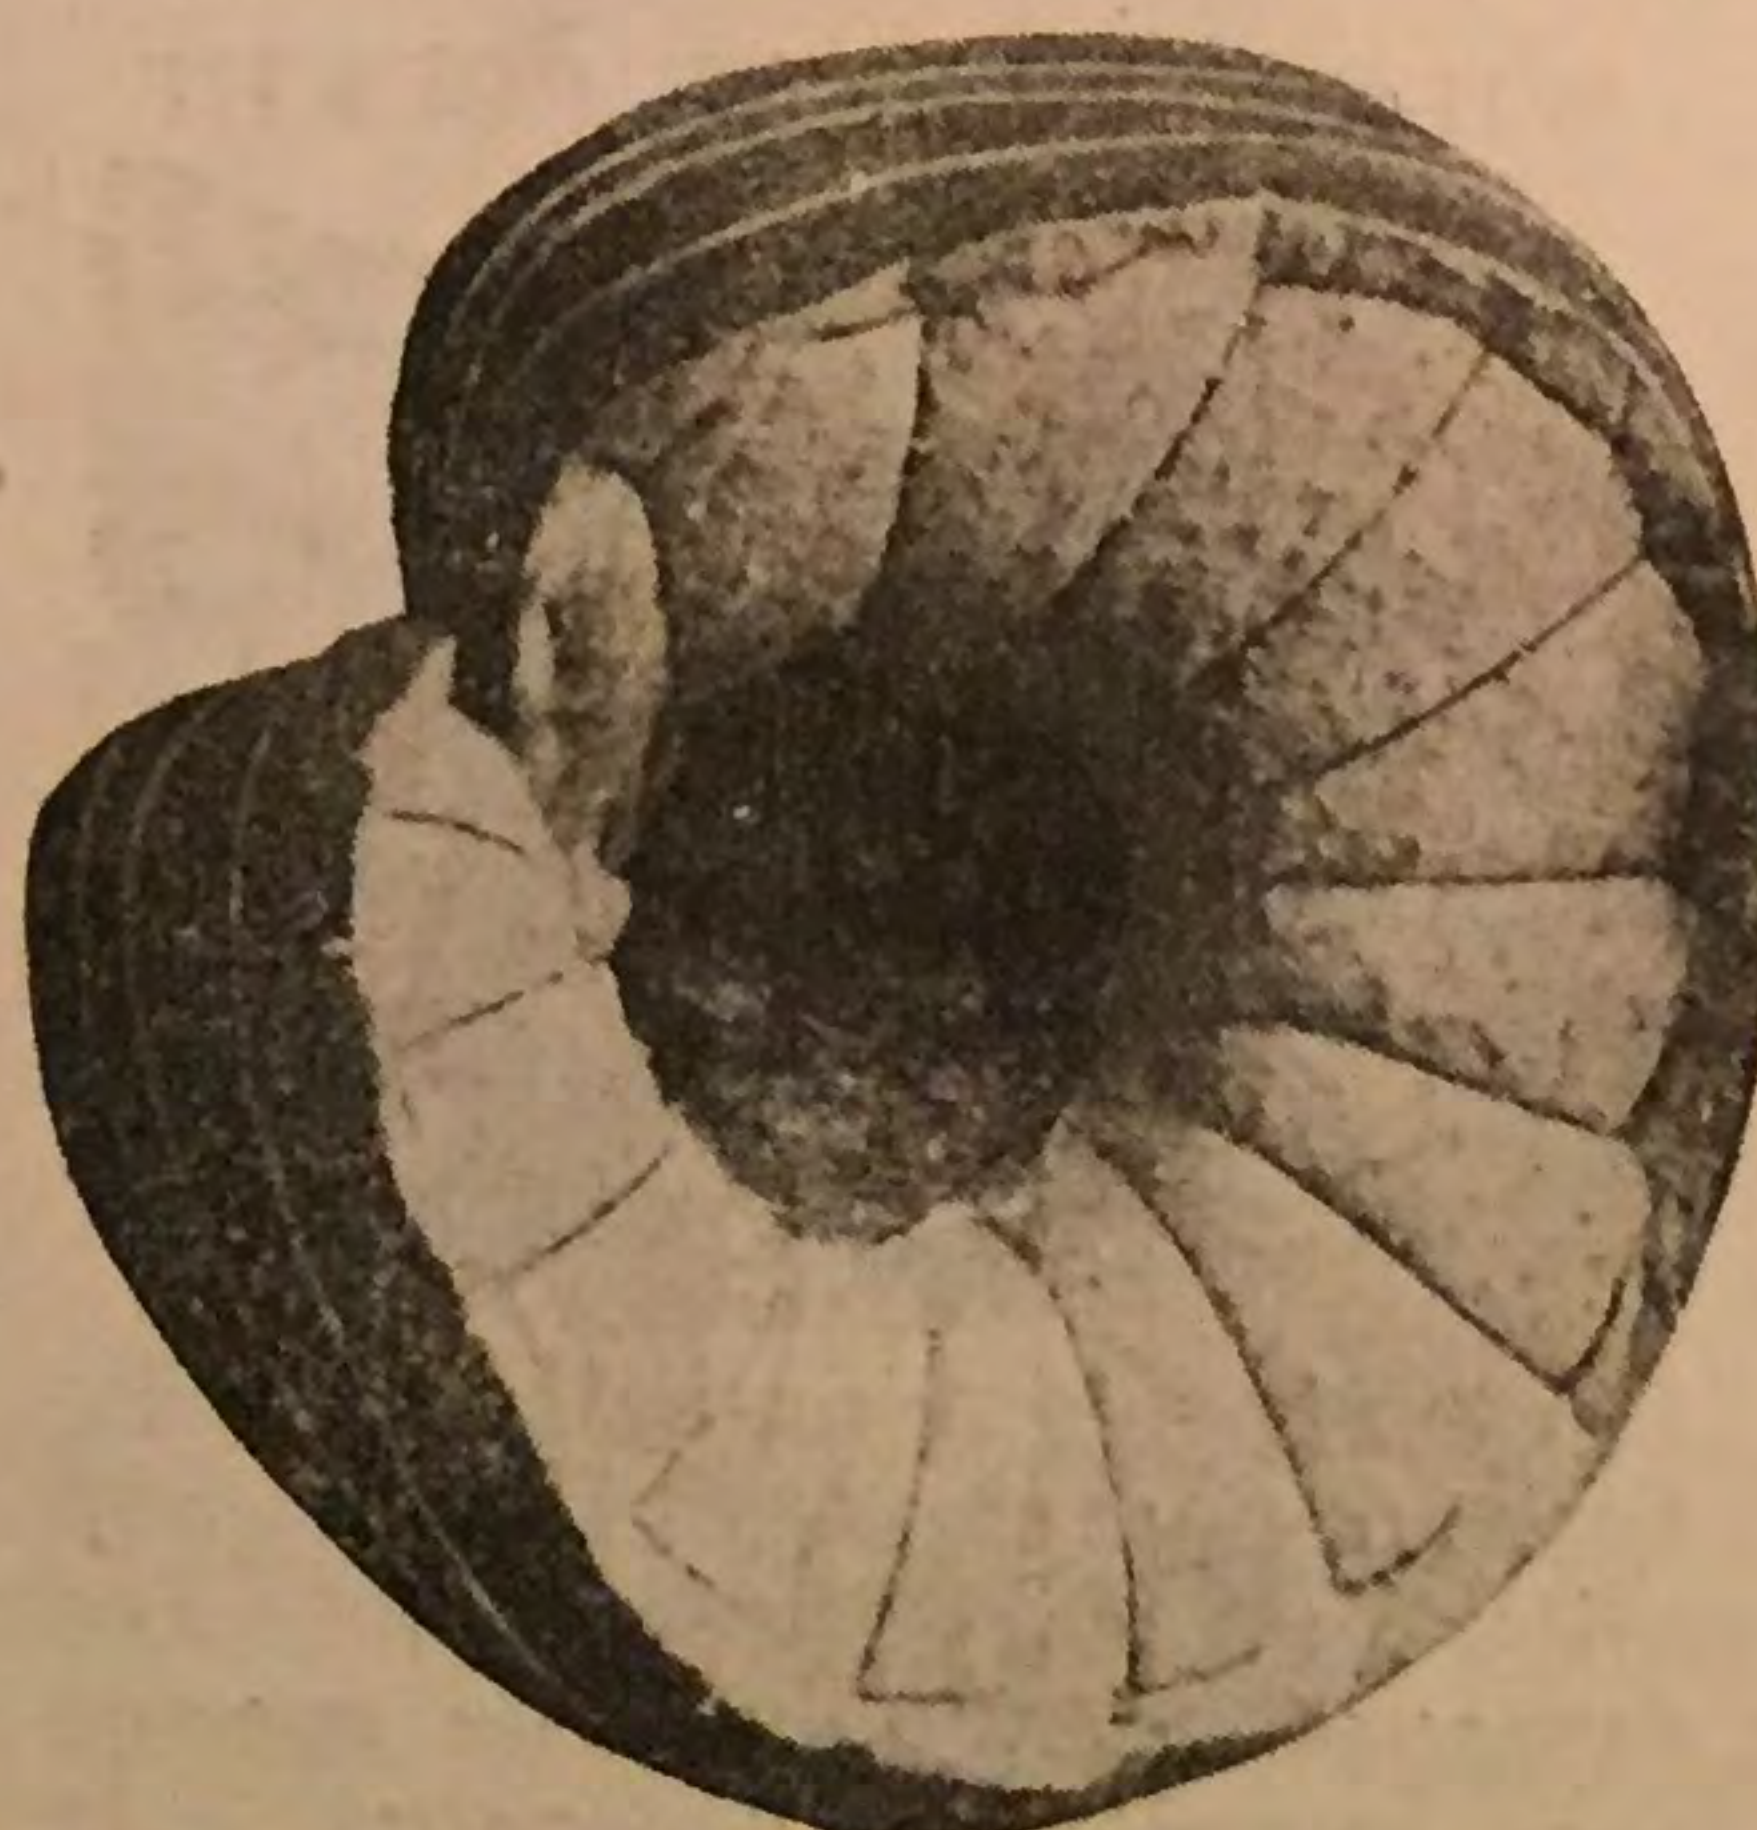

502. Professional Model Mitt. Made of special selected highest quality calfskin, chocolate color, soft and pliable. Padded with genuine asbestos felt, formed by hand and so constructed as to form a deep natural ball pocket which will always hold its shape. Black leather binding; leather welt seam; tan rawhide laced. Wilson special wrist strap and buckle eliminates all possibility of the wrist becoming chafed and sore; also holds the mitt firmly in place, so that the pocket rests directly in the palm of the hand, assuring greater accuracy. Designed by a catcher to meet a catcher's requirements.....Each, \$10.00

542

504. Wilson Moulded Scoop Model. The padding is compressed and made thin at the finger tips to enable the catcher to "scoop" up low balls; also eliminates the clumsiness of the large, bulky mitt. Made of selected cowhide in a dark tan color; hand made asbestos felt pad, formed to make a deep pocket; black leather roll style binding; full laced with tan leather lace. Has our special wrist strap and buckle. A strictly high-grade mitt, combining good appearance and long-wearing qualities.

Each, \$9.00

BASE BALL

Wilson Catcher's Mitts

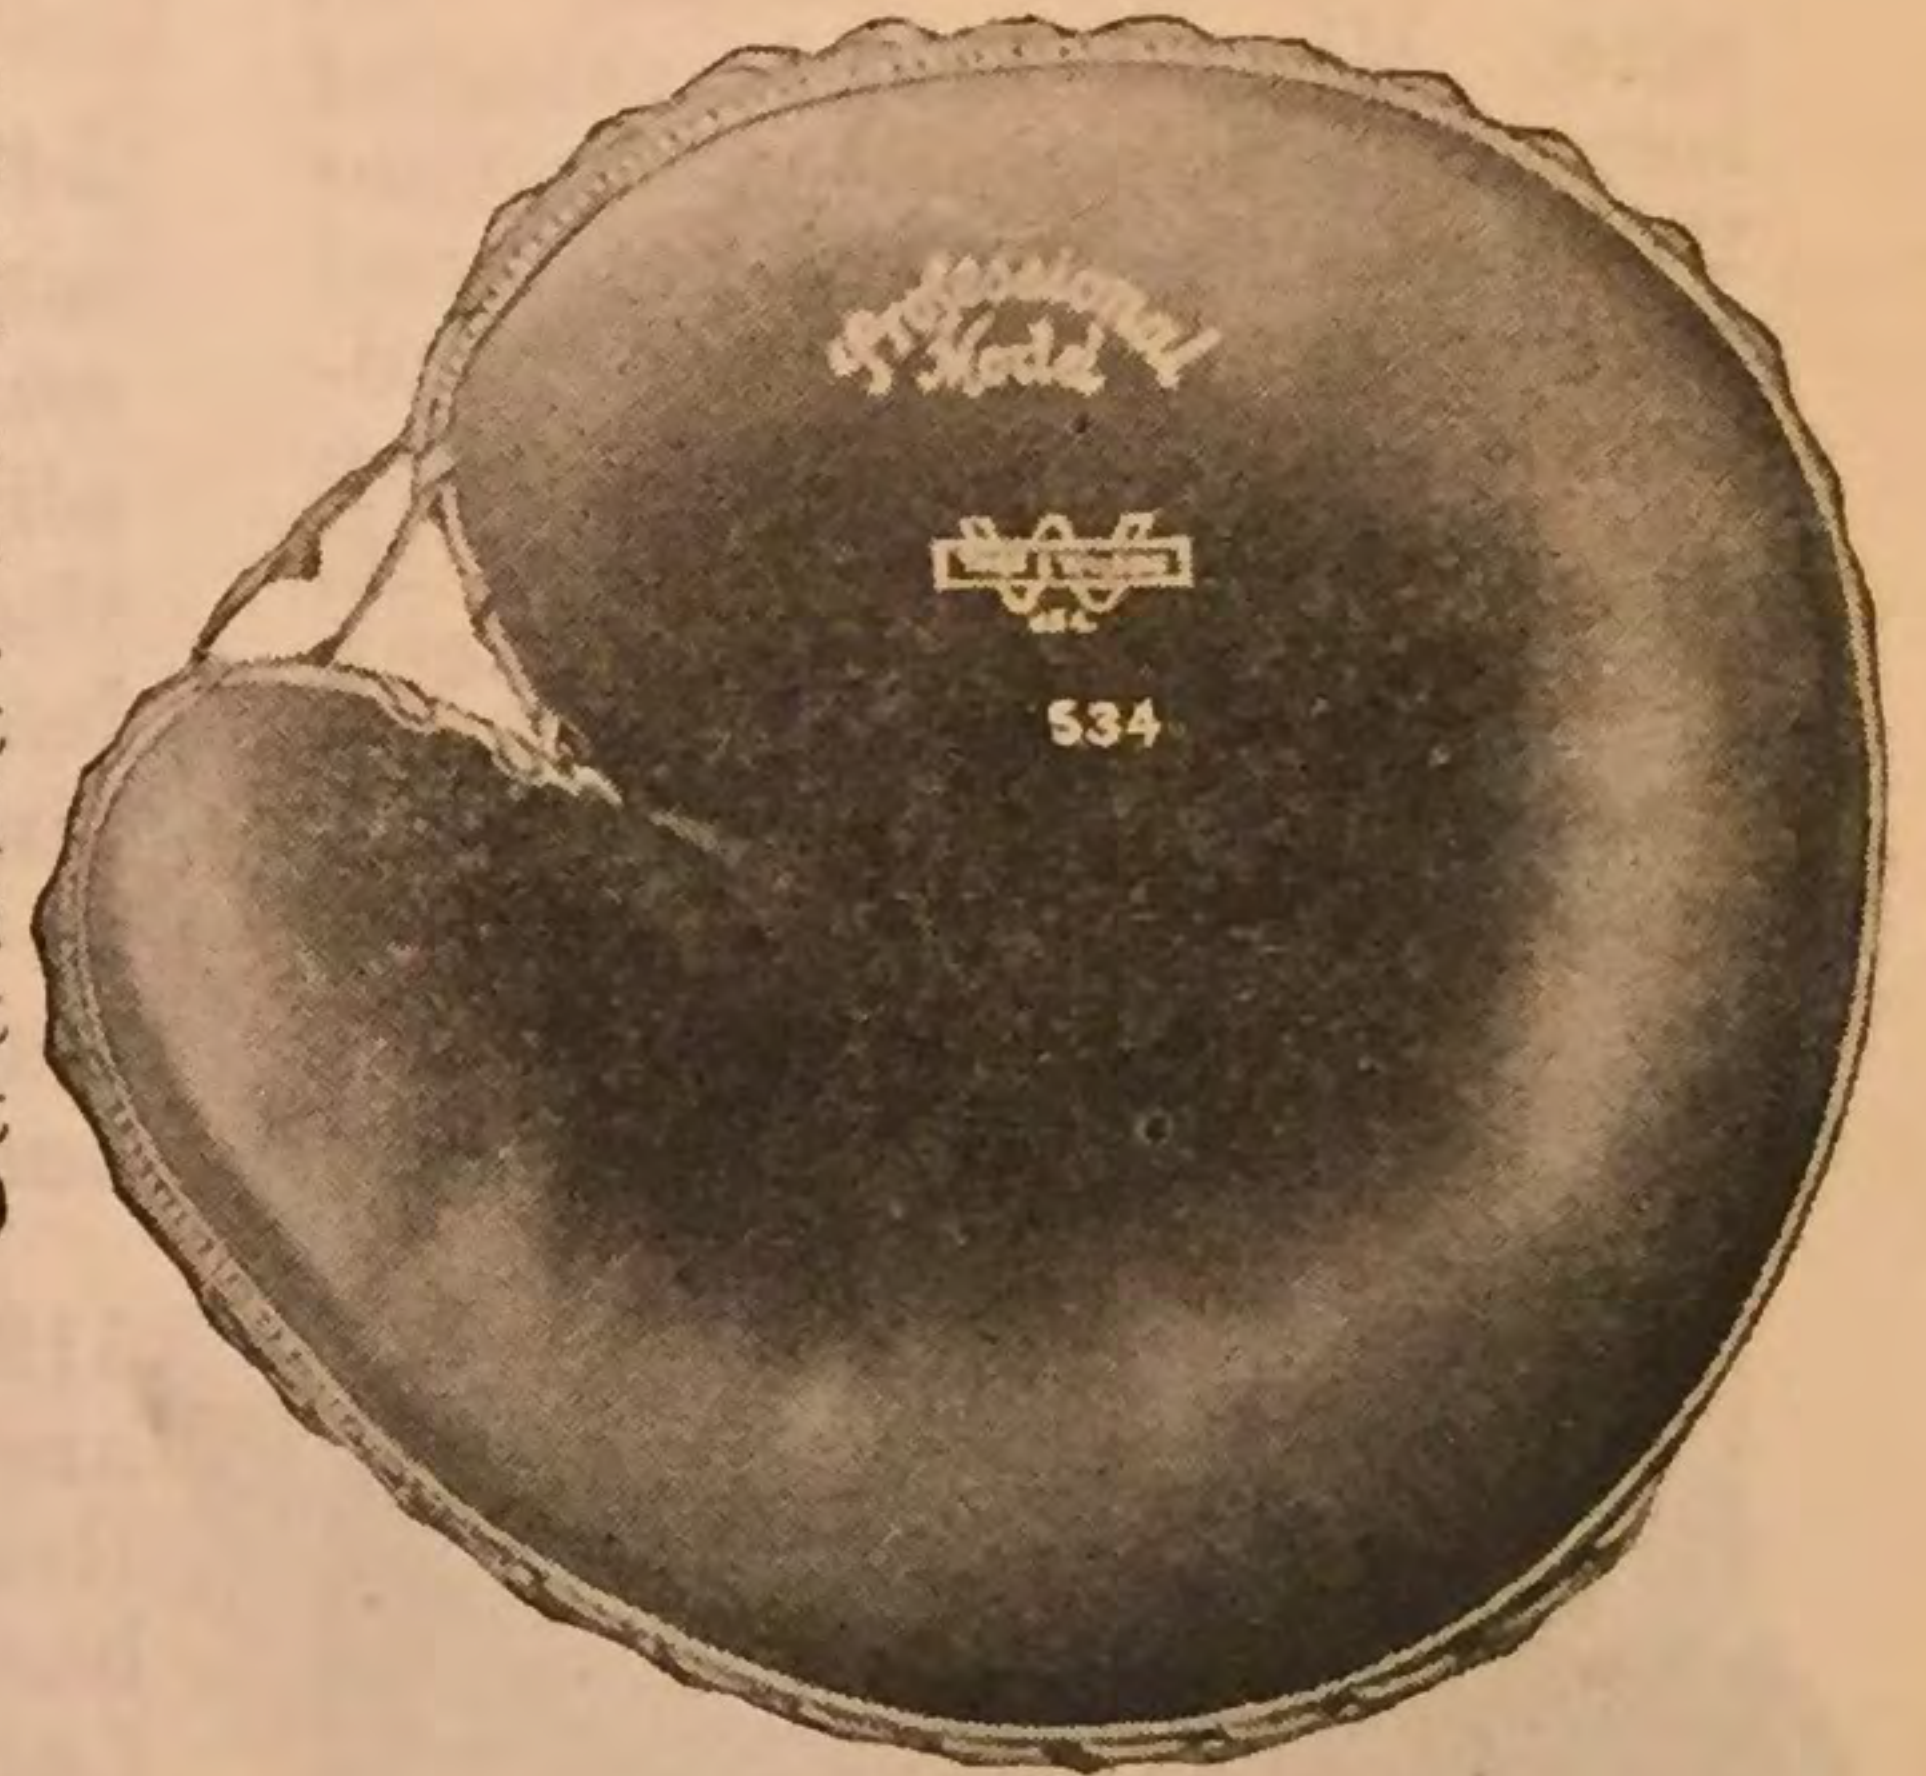

505. Wilson Scoop Model. The palm of this mitt is of the very finest selection of black cowhide; black mitten leather back and fingers; full laced with black leather lace; bound in white, making a beautiful mitt. Shock-absorbing asbestos felt pad, formed to make a large ball pocket which will always hold its shape. Wilson special wrist strap and buckle. A mitt built for service. Each, \$7.50

509

509. Made throughout of the first selection highest quality heavy grain leather, tan color with white turned binding. Made on our famous Scoop Model, with thin edge at tip of fingers, making it possible to scoop up the low ones, as well as bring down the high ones. High quality layer felt pad, properly shaped to give a full ball pocket. A full size professional model at a moderate price. . . . Each, \$6.00

534

534. Black cowhide of the highest quality is used in the palm and fingers, oak tan grain leather back and band turned binding; full leather laced so that padding can be adjusted to suit the player. The individual fingers and band are double stitched with heavy waxed thread. A most attractive and serviceable mitt. Strap and buckle wrist fastening.

Each, \$4.50

544

544. Wilson Semi-Pro Model; the palm and fingers of this mitt are of the finest selection cowhide in a golden brown color; back and band black mitten grain leather, red binding, leather lace, strap and buckle wrist fastening; hand shaped padding, formed to give a deep natural ready brocke pocket.

BASE BALL

Wilson Professional First Basemen's Mitts

550. Professional League Baseman Mitt, "Glove thumb Model." The leather from which the entire mitt, including palm, back and lining, is made, is selected from the finest obtainable calfskin in a golden tan color, of a tannage which is as soft as chamois, and yet stubbornly resists the hardest usage. Black leather roll style binding. Leather welted hand turned seams; panel back; Indian tanned leather laced. The padding is of best quality felt, cut, sewed and formed in a way to produce a natural pocket for the ball to stick in. Adjustable strap and buckle, fastening at thumb and at wrist. Each, \$8.00

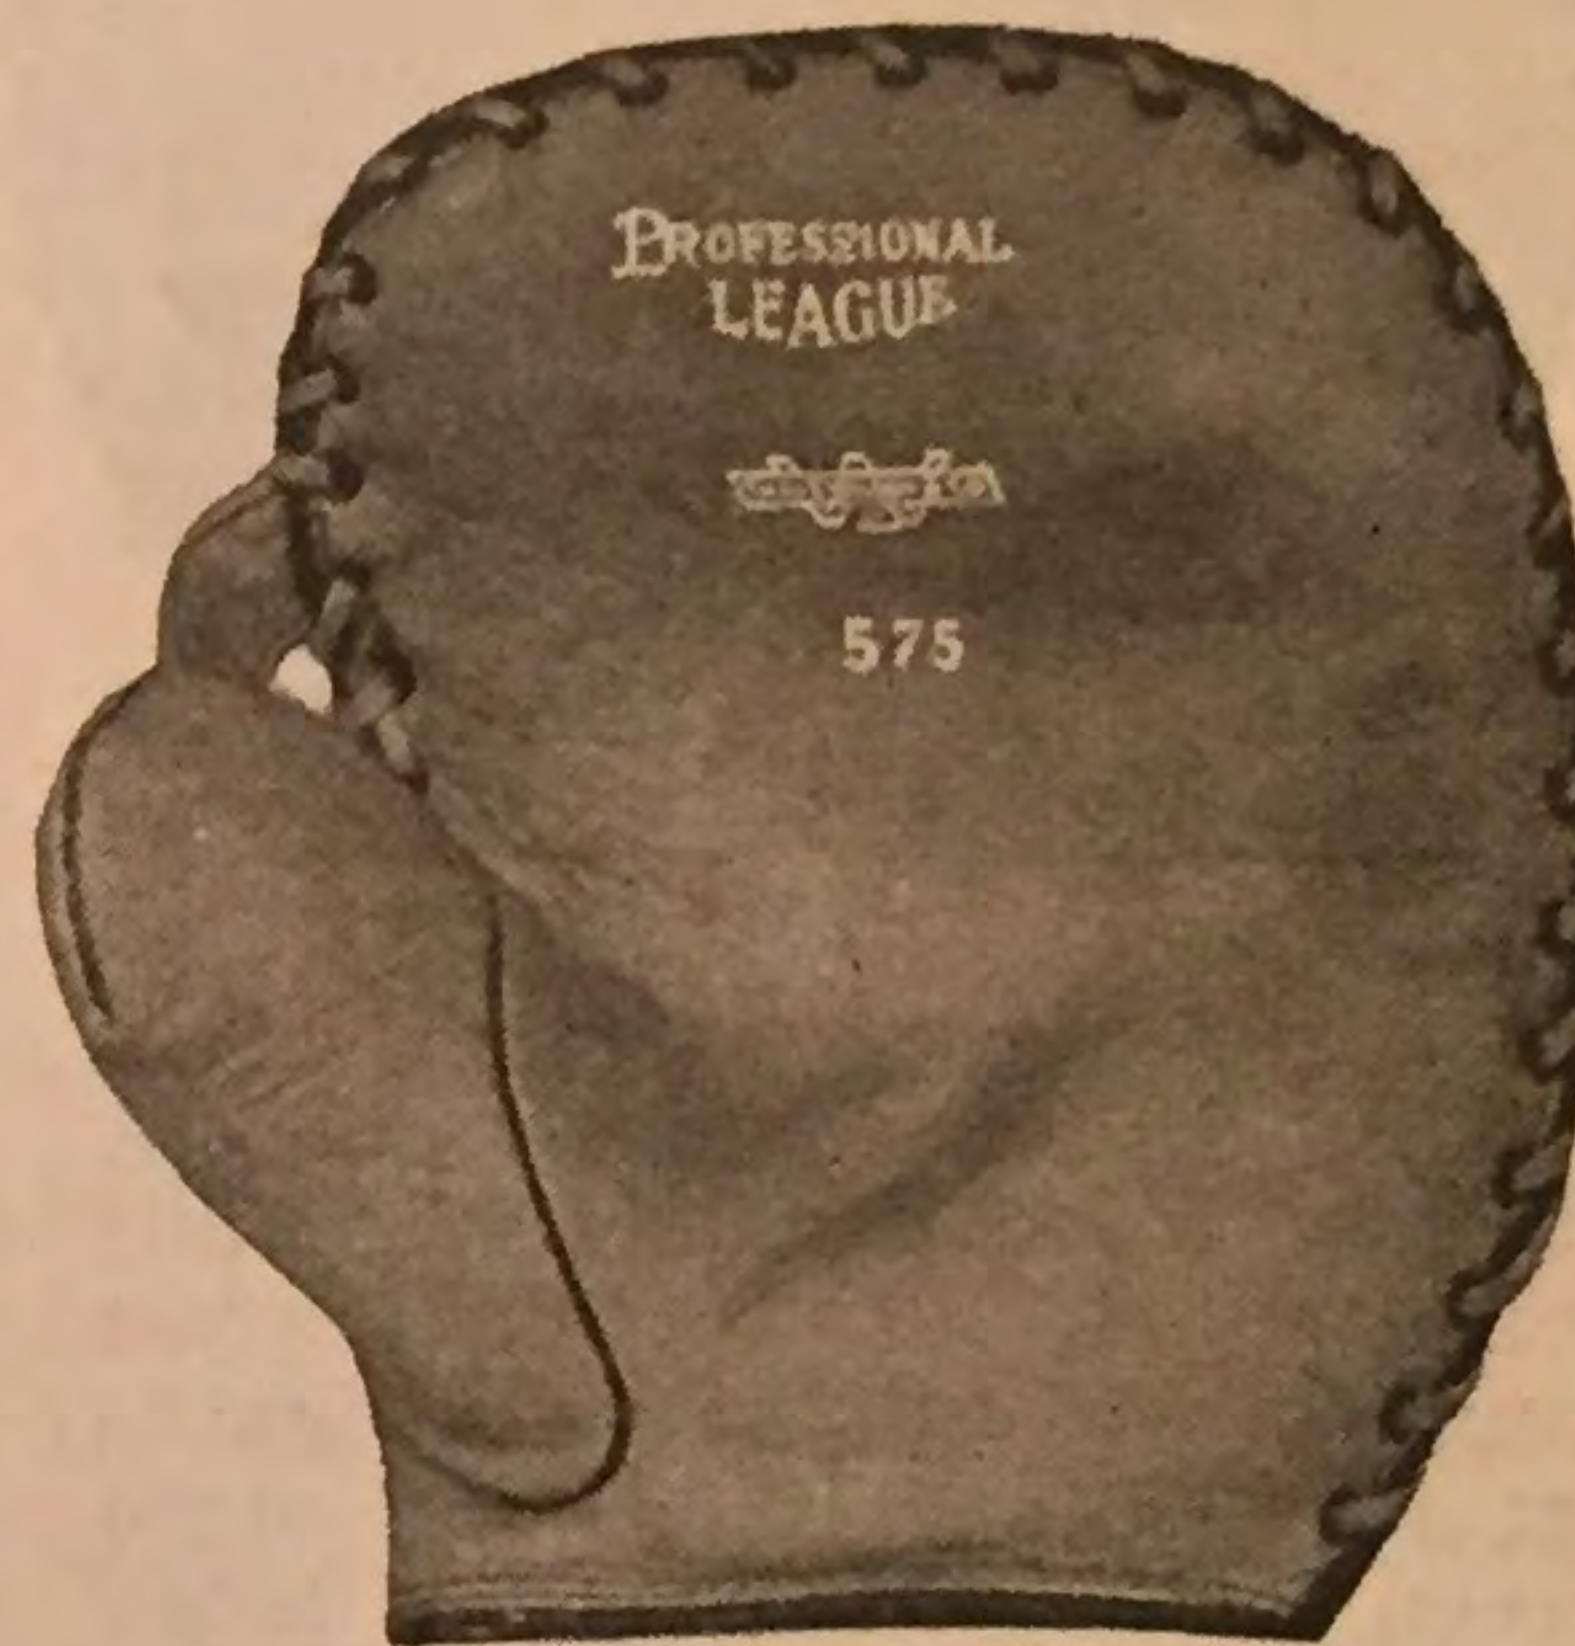

576. Wilson Professional Model First Baseman Mitt. This mitt is made throughout including palm, back and lining, of the finest selected black horsehide, full laced with black leather lace. Roll style black leather binding; best quality felt pad, hand formed and sewed to make a large ball pocket. Wilson Special wrist strap and buckle, made in such a way as to prevent injury to back of wrist. A most practical and serviceable mitt for use at the initial sack.

Each, \$7.50

Unlaced, Showing Felt Padding

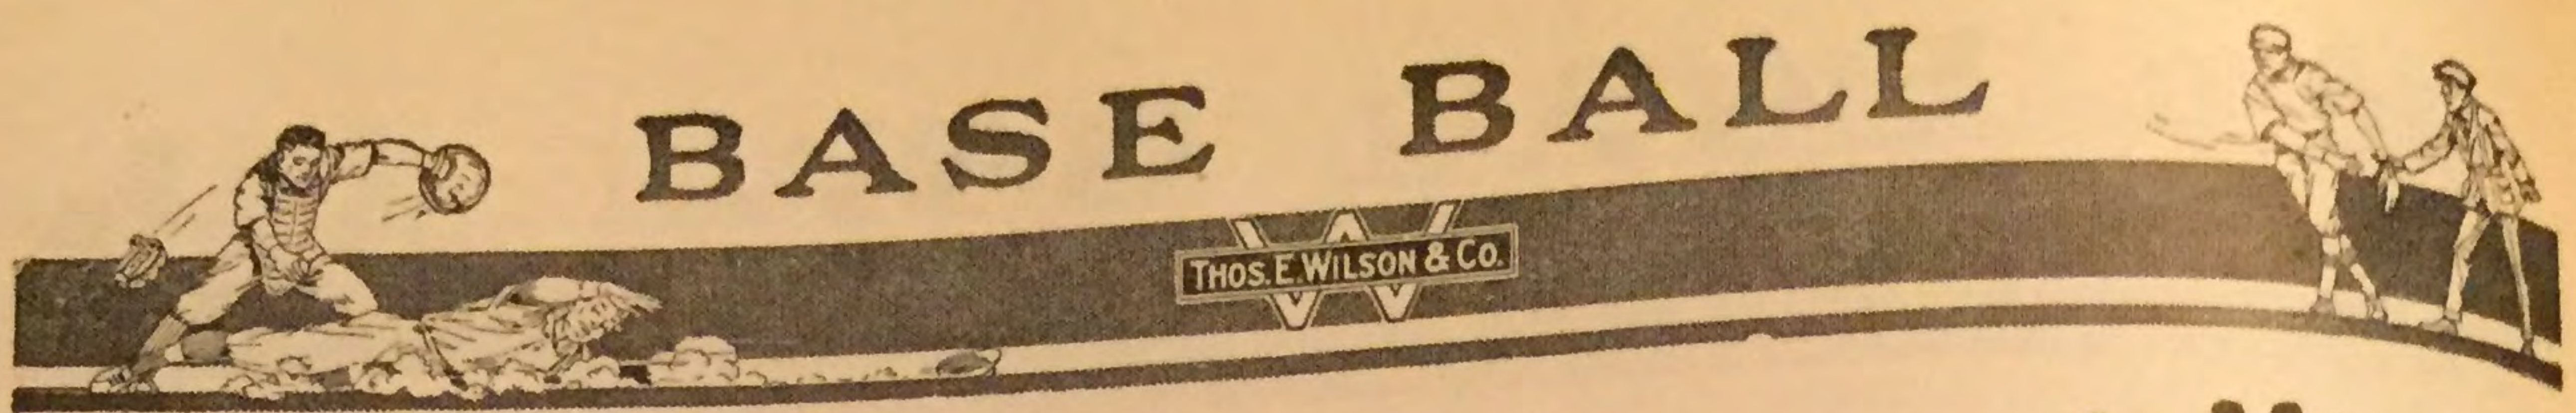

575. Professional League Baseman Mitt, "Glove Thumb Model." Full Panel Back. For this entire mitt, including palm, back and lining, we have selected the finest top grade drab buckskn. Tan leather roll style binding; hand trimmed leather welted seams; full laced edge with tan leather lace; double buckskn web thumb; fine quality layer felt pad, hand formed to give a deep natural pocket; Wilson special strap and buckle wrist fastening. A most attractive and popular mitt.

Each, \$7.00

Next to the Catcher's Mitt, the First Baseman's Mitt is in more constant use and is subjected to more hard usage than any other mitt or glove in the game. It, therefore, must be made right and be able to stand all kinds of abuse and at the same time be soft and pliable.
