### Special Features in Our Catchers' Mitts.

All mitts from \$4.00 and up have hand formed asbestos felt pads, with leather reinforced pockets to prevent wear, due to impact of ball.

All mitts from \$1.00 and up have the improved patented wrist protector, which prevents chafing on back of wrist, and holds the mitt securely on the hand.

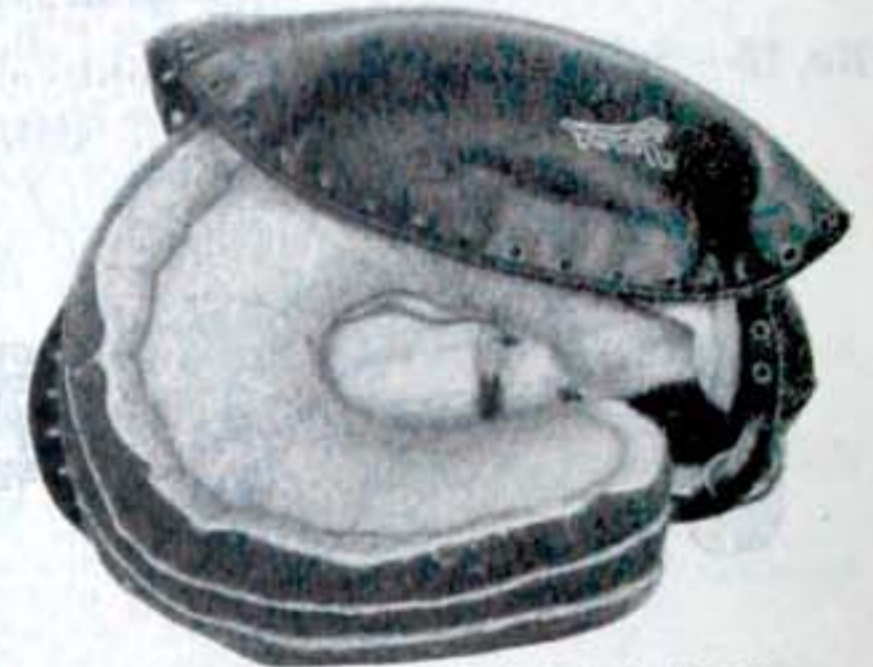

All the wrist protectors on mitts from \$4.00 up are lined with soft elkskin, which absorbs perspiration and dries out without becoming hard or harsh. This wrist protector and elkskin lining are exclusive features of our mitts.

All black and tan laces are made of genuine Indian-tanned rawhide, being much stronger than the ordinary leather laces.

All mitts from \$1.50 have fingers sewed on with two rows of stitching.

All mitts from \$4.00 up have a special leather finger stiffener sewed inside the back, which stiffens and holds the mitt in shape and affords protection to the fingers.

All mitts are made with a deep hand formed pocket and require very little breaking in. See cut above.

Showing Construction of Catcher's Mitts

### Special Features in Our Basemen's Mitts.

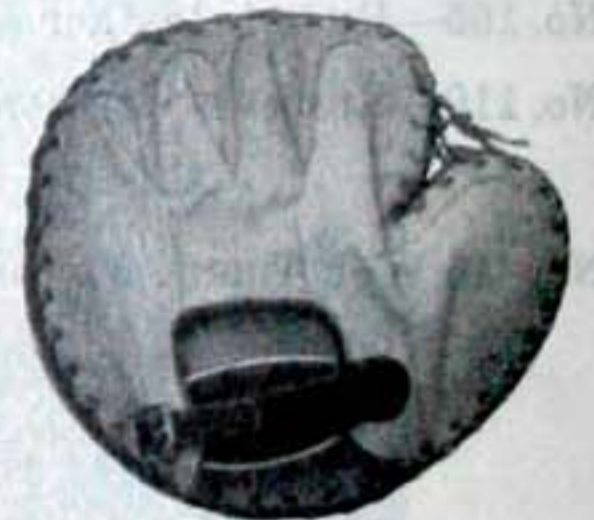

All basemen's mitts from \$2.00 up have a soft, flexible asbestos felt pad.

All mitts from \$1.00 and up have the improved patented wrist protector which prevents chafing on back of wrist and holds the mitt securely on the hand.

All wrist protectors on basemen's mitts from \$2.50 up are lined with soft elkskin, which absorbs perspiration and dries out without becoming hard or harsh. This wrist protector and elkskin lining are exclusive features of our mitts.

All black and tan laces are made of genuine Indian-tanned rawhide, being much stronger than the ordinary leather laces.

Mitt No. 60 is made with inserted thumb, giving a glove shape to the mitt, enabling the player to have greater control of the thumb in grasping the ball. A very popular model with professional players.

No. 25

Showing Improved Wrist Protector

### Special Features in Our Fielders' Gloves.

All padding used in gloves is the best obtainable for the purpose.

All gloves from \$2.00 up, have turned leather binding with two rows of stitching, a special feature of our gloves.

All gloves have genuine leather welt, and from \$1.50 up are hand trimmed.

Gloves Nos. 126 and 143 are made with laced wrist, permitting the player to open glove to adjust padding.

All gloves are padded so that they will require no breaking in.

Gloves Nos. 117, 125 and 129 are provided with our improved adjustable wrist strap and buckle, which enables the player to buckle the glove tight or loose around the wrist.

| No. 145—Professional League Fielder's Glove. When considering the number of times, every game, when major league players are required to make one-hand stabs for wide-thrown or hard-hit balls, the importance of the deep natural pocket, and free finger action of this glove will be appreciated. Made of the very finest grade of light-colored tan calfskin, an extremely serviceable leather, tan leather turned binding, double sewed, full leather lining and hand trimmed welted seams. Has medium padded heel with padding cut out in center of palm, hence the ball sticks just as well when the glove is new, as with a glove broken in by long and continued use. These gloves are very popular with big league ball players, and can be depended upon for satisfactory service at all times..... | 64.00                |

No. 222—Body Protector

No. 228—Catcher's Leg Guard

No. 225—Sliding Pad

### Inflated Base Ball Body Protectors.

Young's inflated body protectors, guard completely, yet do not hinder the catcher in his back-stopping or making throws to bases. The stoop-break is placed to permit the catcher to bend his body quickly. Body clasp is patented; fastens quickly and firmly. The materials are high grade, and the construction embodies the ideas of well-known catchers.
